

# MODULAR ARTICULATOR SYSTEM

**1210 AS Basic Module** with PCH Articulator  
**1211 AS Basic Module** with PSH Articulator

Includes:

- 2094 AA Articulator Support Legs (set)
- 4000 FB **Pana-Mount**™ Face-bow
- 4070 FB **Bio-Esthetic**™ Level Gauge
- 8210 AA Molded Plastic Case
- 2280 ME Mandibular Mounting Stand
- 2850 MP Magna-Split II System
- 7172 DP **Bite-Tray**™ Registration Plates (20)
- 4405 DP **Bite-Tab**™ Compound Discs (180 Disks)
- 5401 EM Basic Instruction Manual

The Basic Module includes all of the essential items needed to mount casts in centric relation and set the protrusive condylar guide with a unique intraoral "check bite" jaw positional record. The molded plastic case holds the articulator, face-bow, and accessories plus room for mounted casts. The basic module routinely comes with 1.5mm Motion Analogs. The module also comes with the magnetic mounting plate system.

**1230 AS Advanced Module** with PCH Articulator  
**1231 AS Advanced Module** with PSH Articulator

Includes:

- 2094 AA Articulator Support Legs (set)
- 4000 FB **Pana-Mount**™ Face-bow
- 4070 FB **Bio-Esthetic**™ Level Gauge
- 8210 AA Molded Plastic Case
- 2280 ME Mandibular Mounting Stand
- 7172 DP **Bite-Tray**™ Registration Plates (20)
- 4405 DP **Bite-Tab**™ Compound Discs (180 Disks)
- 7600 AP Axi-Path III Recorder (Macro-Micro adjust Axis Arms)
- 2250 ME Axis Mounting System
- 2804 MP Magna-Split Mounting Plate (for AMS)
- 2850 MP Magna-Split II System
- 2105 AA 0.5mm Motion Analogs
- 2110 AA 1.0mm Motion Analogs
- 2120 AA 2.0mm Motion Analogs
- 2125 AA 2.5mm Motion Analogs
- 5401 EM Basic Instruction Manual
- 5403 EM Advanced Instruction Manual

The Advanced Module includes all items in the Basic Module, as well as the Axi-Path III Recorder and Axis Mounting System. The Axi-Path III Recorder provides the means to quickly and accurately record a patient's mandibular movements on the transverse (hinge) axis. The Axis Mounting System is used for true hinge axis transfer mounting as well as arbitrary face-bow mountings. Also included is the full set of motion analogs (0.5, 1.0, 1.5, 2.0, 2.5mm).
